

Patrick Harden

Front-end Web Developer

Hey I'm a web developer who specializes in react, javascript, wordpress, and building dynamic applications. I pioneered the react-static/wordpress framework which is exemplified on my github.

Work Experience

Web Developer

Expect3

February 2018 - July 2018

My role was to primarily build new websites and handle client requests/issues. Working with a marketing agency provided me with some valuable insight into PPC campaigns, Search Engine Management, and additionally provided me with liberty to build new things..

- Built all websites
- Developed new framework
- Handled Domains/DNS
- Fixed issues, handled requests
- Worked on a website generator
- Managed hosting and CDN's

Junior Web Developer

Seed Technologies

December 2016 - December 2017

As a junior developer, my role was significantly narrower - to create websites based off of PSD's. Websites were built in .NET with visual basic.

- Built Client Websites
- Honed in JS/CSS/HTML skills
